MathXL[®] for School

30-Day FREE Trial

Welcome to MathXL[®] for School!

What is MathXL for School?

With MathXL for School, teachers quickly create, edit, and assign online homework, quizzes, and tests. Students practice, review and work through personalized study plans to help them master math topics. Teachers regain valuable classroom time when they are armed with student and class level data from the online gradebook, while students take ownership of their own learning.

Read What Teachers are Saying

"The program is working out really well for me. I have not had a single kid get below a B on a (paper/pencil) test since they have been working on the program! The kids seem to really enjoy working on it and are "starting to get it now" where they have never really understood it before! I hope that our district will continue with this program."

- Erin Birkland, Math Teacher
North Kansas City High School

Try it Out For Yourself

On the following page, you will find instructions on how to try MathXL for School with your students for 30 days. Have fun, and if you have questions, don't hesitate to contact us at 800-677-6337.
